UC Berkeley Faculty / Staff: Transportation and Housing Survey

UC BERKELEY FACULTY/STAFF TRANSPORTATION AND SURVEY

Providing physical access to the campus is an essential element of UC Berkeley's academic mission. This survey will help the campus understand the transportation needs of faculty and staff and inform future programs and development at UC Berkeley.

Please fill out the following questions about your transportation and housing situation. The survey should be comprised of approximately 20-30 questions and take about 20 minutes to complete. Although the survey is being conducted Spring semester 2010 all questions refer to Fall semester 2009. Please answer as accurately and completely as you can. Responses are important and will be confidential.

Although our provider has indicated that this survey should be compatible with desktop assistive technology, if you need additional or special assistance in filling it out please let us know via email (planning@berkeley.edu) and we will work to accommodate you.

11 How do you define primary mode?

This is the mode I use most often. (I typically use only one mode each trip, but I may use different modes on different days or different times of year.)

This is the mode I use for the longest part of the trip. (I typically use multiple modes in a single trip to work, such as bus/BART, drive/BART, or BART/bicycle.)

This is the only mode I ever use.

98 Trip 2 Payment Method:
- Booked air travel through campus travel agency
- Paid for travel myself and requested reimbursement for air travel from UCB
- Air travel was paid for by another agency or organization
- Other, please specify

99 In thinking about the business air travel you've done in the last 12 months, would you have considered or would have it been feasible to do any of the following instead of, or as an alternative to, traveling by air (select all that apply):
- Interactive videoconferencing
- Webinars
- Conference calls with interactive web options
- Traveled by car, possibly sharing a ride with another person
- Traveled by bus or train
- None of these alternatives would have been feasible
- Other, please specify

100 When arranging for business air travel would you like to know the climate related impacts of the trip choices you are selecting from - so along with criteria such as price, schedule, and number of stops you could also see which trip options have the least greenhouse gas emissions?
