

Policy—Bike Share Programs on the UC Berkeley Campus

To assure the safety of the campus community, the operation of any docked station or dockless/stationless ("Mobility Program") on the University of California, Berkeley campus ("Campus") is prohibited, unless expressly approved by the University, including, without limitation, the Parking & Transportation, and University of California Police, and/or Department of Risk Management. Proper vetting and review of such programs by the University is a necessary step to ensure that the operators regularly inspect and maintain the safety of the rental bikes or scooters, have responsible and sustainable business practices, and are committed to comply with University's processes and policies.

UC Berkeley requires that all scooters and bicycles on the UC Berkeley Campus be registered with the University, and operate in compliance with all university codes, policies and applicable laws. Failure to do so may result in penalties, including, without limitation, removal, immobilization, and/or impoundment of the bicycles and scooters, including trespassing bicycles that are rented through an unauthorized Bike Share Program. Impound fees are set forth by the Transportation Demand Manager (TDM) Administrator.

Bike Share Programs are not allowed to use UC Berkeley's name, trademarks, and/or images in connection with their businesses, or otherwise to state or imply that the program is endorsed by UC Berkeley or authorized to operate on UC Berkeley's Campus, unless such use is approved by the University in accordance with the university guidelines.
